- Speaker & Topic** : **Bryan Clifford**
- Topic** : **How Value management and Partnering
Compliment Each Other**

Value Management (VM) techniques were established in USA in 1954. It was widely used amongst USA manufacturing, and the US Government (e.g., the Department of Defence) in the 1960's. The use of VE techniques gradually spread throughout North America, was introduced in Japan by the mid of 70s, and has since been widely used in Europe, Australia, China and other countries. Since 1990 VM has been widely used in Hong Kong, especially in the construction industry.

More recently, partnering has become an important improvement method adopted to improve communication and reduce risk and resolve conflicts in contracts. Bryan with his wealth of experience will share how value management and partnering can benefit our construction projects and other contractual solutions.
